Remember to include a complete transcript when you submit your application. If you have not taken the courses above, indicate when you intend to do so.

If you are a transfer student, indicate the grade from the equivalent course at your prior institution and include transcripts from all other colleges and universities which you have attended.

Please answer the following questions. Each of your answers should be clear and concise. Answers to all of the questions should be typed and submitted along with you application (add extra space or pages if needed).

1) What topic do you want to research for your senior thesis?

2) Have you taken any courses that are relevant to the topic that you plan to research?

3) What do you plan to do after you graduate from UC Irvine?

Students who are admitted into the honors program in economics will have to find an advisor for their senior thesis before or at the beginning of the Fall quarter. It is your responsibility to find a topic and an advisor. We encourage you to visit the faculty during their office hours, talk to them about your research interests, and build an educational relationship with them. The advisor must be a professor, instructor, or faculty affiliated with the economics department. Choice of an advisor is not required at the time of submission of the honors application.
